Subject: Request to use Refugio photos for presentation

Dr. Susan Klasing with the Office of Environmental Health Hazard Assessment needs to give a presentation to her executive team and then to scientists discussing the fishery closure sampling process.

She would like to use the attached photos in her presentation (she has a wide selection and may not use all).

She would like the UC to let her know which ones are ok to use. They are numbered for easy reference and have a caption with some information about what is going on. Where possible, sampling team members have been identified for the UC.

Please advise of concerns/approval. Thank you.
